Product highlights

Chapter +/- and chapter scan
Easily locate and scan the succeeding or preceding chapters on a disc at the touch of a button.

Easy keypad design
Convenient ergonomic access to all features and functions of the remote control make it easy to access and operate.

Guide, info/select and scroll
Enjoy all your satellite system has to offer. Features allow you to access on-screen satellite channel guide, info, select/OK , quit, and scroll to easily navigate through the guide.

Subtitle, zoom and repeat
Enjoy complete access to your DVD features: view subtitles, and repeat scenes at the touch of a button.

1.5" x 2" TFT screen
Conveniently call up and view favorite channel icons

Favorite channel icons
Enjoy viewing favorite channel logos onscreen.

Kid safe
Allows children to choose and watch only selected channels. Locks them out of essential programming functions.

Label your own buttons
Name the channel yourself or use one of the favorite icons

Learning functionality
Learning functionality refers to the process through which a remote control captures and stores infrared signals from other remotes for later use. When device codes are not included in the on-board database, they can always be learned from the original remote, simply by pointing to it.

One-touch convenience
One-touch control allows you to perform multiple commands with one press of a button via a macro. A macro combines a string of pre-programmed commands under one single button. Therefore, it simply takes one button press to execute a series of functions.
